

FOR IMMEDIATE RELEASE

MEMKO Pty Ltd Announce Distribution Agreement with Verisurf Software, Inc.

Melbourne, Australia – 8th November 2010 - MEMKO PTY LTD and Verisurf Software, Inc. a metrology software development company are pleased to announce the completion of a distribution agreement enabling memko to market, sell, install, train and support Verisurf software across Australia, New Zealand and neighboring countries.

Verisurf's commitment to delivering premier, field-proven computer-aided inspection and manufacturing solutions will give Memko the ability to offer their customers the most powerful, efficient and competitive priced Model Based Definition software suite available today.

"We are delighted to have Memko representing us," said Ernie Husted, President and CEO of Verisurf, "Mr. Miletic's engineering background, manufacturing experience, management skills, industry connections and University partnerships are ideal for implementing Verisurf's Model-Based Inspection technology into manufacturing companies."

"Memko's software products and consulting services complements Verisurf," comments David Olson, Director of Sales and Marketing for Verisurf, "their talented staff is committed to premium customer care and their customers understand the benefits of Model-Based Inspection to improve inspection capacity and product quality while reducing support costs."

"Prior to founding Memko, I had the opportunity to utilize Verisurf Software. I was impressed with its overall capability to revolutionize the way we build, measure, analyze and reverse engineer complex components" said Miro Miletic, Founder and Director of Memko. "We are looking forward to working with such a visionary company and representing its products in Australia and New Zealand."

About Memko Pty Ltd

MEMKO PTY LTD is a leading Australian provider of technology for innovation, Industry Best Practices and Support to the engineering and manufacturing communities covering multiple industry segments from aerospace, defence, automotive, marine and energy to consumer goods, high tech and life sciences.

MEMKO enables its customers to improve **competitiveness, productivity** and **profitability** by enhancing key aspects of Product Lifecycle Management (PLM) capabilities. Memko is exclusively committed to the Dassault Systemes PLM portfolio and complementary 3rd party solution providers.

About Verisurf Software, Inc.

Verisurf Software, Inc. is a US based software development company committed to delivering advanced computer-aided inspection and reverse engineering solutions. Verisurf software enables manufacturers to produce higher quality products in less time and at a lower cost by using highly automated paperless, 3D model-based inspection processes with digital measurements, rather than 2D paper drawings with analog hand measurements.
